### How Does a Web Seminar Work?

You will need Internet access and a separate phone line to participate. We will send you a link, which connects you to the presentation via the Internet. You will then call a toll-free number to access the audio portion of the program.

(Please note: the sound does not go through your computer speakers.)

Groups are welcome to participate and will want to arrange for projection of the computer images and a phone with adequate volume capacity for the room size.
