

# Announcing the new “Successful Programs, Successful Schools!” Guide from NOCTI!

**NOCTI**® *Measuring What Matters!*  
Client Services Center

Order online  
for only \$10!

This guide will help CTE professionals meet the goal of continuous improvement, while simultaneously improving student competence each successive year. Professionals will learn techniques for improvement based on data derived from end-of-program technical assessments. This useful tool provides clearly written information and examples to help in interpreting score reports and methods to turn that data into meaningful goals for short and long term planning. If you are looking for ways to have “Successful Programs, Successful Schools” – this is the guide for you!

*Once your order is processed this guide will be posted in the Reporting section of your Client Services Center. Please note that this guide is copyrighted and intended only for the use of the purchasing school.*
