

# TASK-LEVEL REPORTS:

## A Roadmap for Improvement

How do I know what the students don't know?

How do I target my teaching to address what they don't know?

How do I prove that I'm teaching them what they need to know?

NOCTI's task-level reports provide detailed data to pinpoint strengths and areas needing improvement.

Every piece of data NOCTI provides has a specific purpose. Learning to use the data can assist in making improvements at the student, classroom, school, district, and state levels.

### USE THE DATA TO:

- Identify student growth areas
- Target areas for improvement
- Support successful differentiated teaching
- Provide information to be used for curriculum and instructional improvement

### CONNECTING BLUEPRINTS AND REPORTS

Both NOCTI's **Assessment Blueprint** and **task-level report** contain the task list for the test. Whether using this test in a pre- or post-test format, this consistency makes it easy for teachers to review critical knowledge and skills as they plan for classroom instruction as well as overall instructional improvement.

		Task Level Report						
Site Code: XXXX		Multiple Choice Assessment			Level: Secondary			
Test Title: Criminal Justice		Items Correct by Participant			Type: Post-Test			
Test Date: XX/XX/XXXX								
Duty	Task Description	# Items Possible Per Task	Average Correct by Group	Anderson, Andre	Bowman, Josh	Cartwright, Devin	Lopez, Emma	
Sample Duty	1 Display knowledge of search and seizure	5	3.0	5	4	5	3	
	2 Identify key constitutional amendments	5	3.5	5	5	4	2	
	3 Display knowledge of branches of government	3	1.9	2	2	1	3	
	4 Describe arrest procedures	4	2.7	3	2	3	2	
	5 Define types, categories, and/or classes of crimes	4	2.3	3	2	1	1	
	6 Exhibit knowledge of differences between criminal and civil law	3	1.7	2	2	1	1	

WHAT CAN I DO WITH THIS DATA ??
