- D. failing to rescue a patient in a burning building

What year did terrorists attack the World Trade Center which killed 343 firefighters?

- A. 2001
- B. 2004
- C. 2007
- D. 2008

Performance Assessment

NOCTI performance assessments allow individuals to demonstrate their acquired skills by completing actual jobs using the tools, materials, machines, and equipment related to the technical area.

Administration Time: 1 hours and 40 minutes

Number of Jobs: 6

Areas Covered:

17% Adult CPR and AED

Participant will use the scenario provided to perform an assessment of the situation and treat accordingly using an AED and CPR.

24% BVM Ventilation

Participant will use the scenario provided to perform an assessment of the situation and demonstrate ventilator assistance to an apneic patient.

6% Hazard Identification

Participant will use the Emergency Response Guidebook provided to correctly identify the chemical spill, and complete the worksheet, identifying associated health risks and the correct protective equipment.

17% Donning of PPE and SCBA

Participant will properly don PPE and SCBA as quickly as possible.

25% Traffic Stop and Citation Issue

Participant will use the scenario provided to initiate a traffic stop, issue a summary citation, and complete a citation report.

(Continued on the following page)

Areas Covered (continued)

11% Water Supply

Participant will wear appropriate PPE and deploy a section of hose from the fire engine to the hydrant to establish a water supply and verbalize the process for opening the hydrant.

Sample Job

Water Supply

Maximum Time: 15 minutes

Participant Activity: While wearing appropriate PPE, deploy one section of hose from the fire engine (if available) to the hydrant. Establish a water supply. Notify evaluator when hose is connected. Verbalize the process for opening the hydrant or open the hydrant upon evaluator's signal.
