

Business Continuity

Data Security, Backups, and Business Continuity:

NOCTI/Nocti Business Solutions (NBS) is committed to maintaining the highest standards of data security, system backup activities, and business continuity to protect our customers' information and ensure uninterrupted service.

1. **Data Security:** NOCTI/NBS maintains robust data security measures, including encryption, access controls, and regular security audits, to safeguard all customer data against unauthorized access, disclosure, alteration, or destruction.
2. **Regular Backups:** NOCTI/NBS performs regular backups of all critical data to ensure that subscriber information can be restored in the event of data loss or corruption. These backups are securely stored and regularly tested for reliability.
3. **Business Continuity:** NOCTI/NBS maintains a comprehensive business continuity plan designed to ensure the rapid recovery and continuation of services in the event of a significant disruption. This plan includes strategies for disaster recovery, crisis management, and communication protocols to keep customers informed during any incidents.
